

Cristhian Eduardo Cáceres Velásquez – 20201600006

Enlace de repositorio: <https://github.com/CCUNAH/Ejercicio-5---Cristhian-C-eres.git>

Base de Datos

The screenshot shows the MySQL Workbench interface. The 'Schemas' pane on the left lists the database structure, including the 'programacion' database and the 'usuario' table. The 'Query' pane shows a SQL query: `SELECT * FROM programacion.usuario;`. The 'Result Grid' displays the query results in a table format.

Codigo	Nombre	Rol	Clave	EstaActivo
ccaceres	Cristhian Cáceres	Administrador	123	1
cvelasquez	Eduardo Velasquez	Usuario	456	1
ncasco	Nahum Casco	Administrador	789	0
pfunes	Pedro Funes	Usuario	000	0

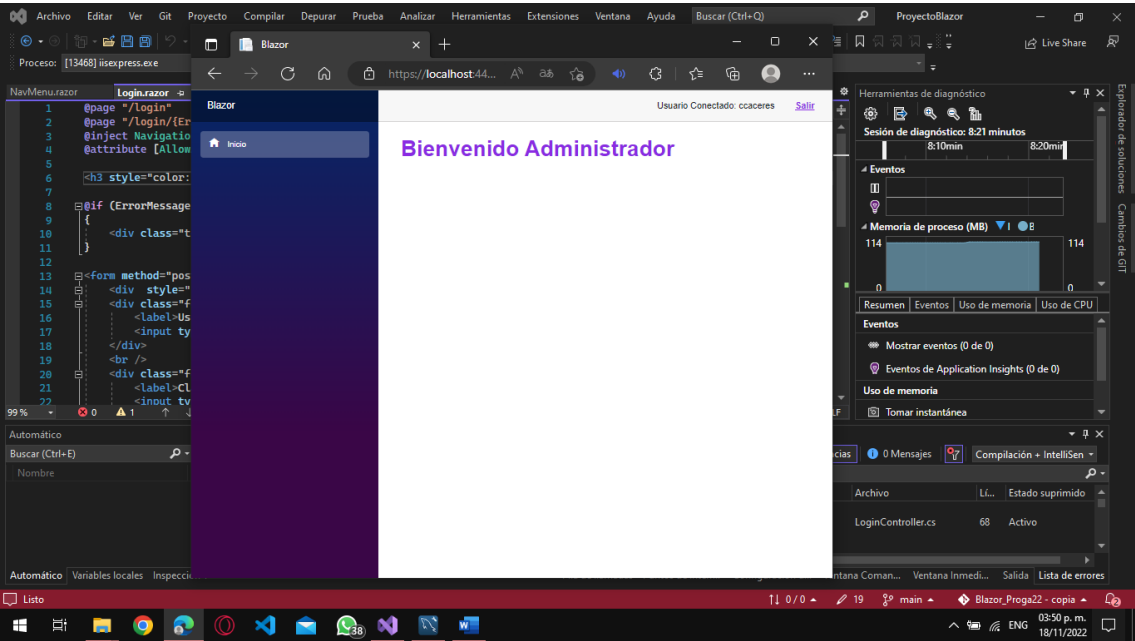

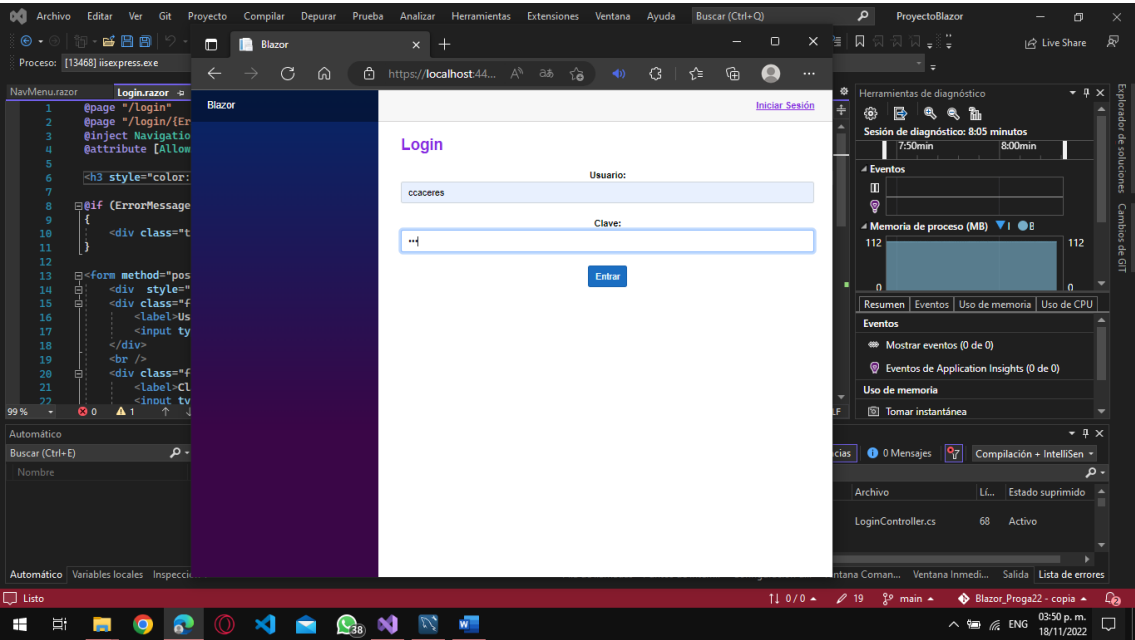

The 'Output' pane at the bottom shows the execution details: `1 15:37:23 SELECT * FROM programacion.usuario LIMIT 0, 1000`, with a message indicating 4 rows were returned.

Ejecución del programa

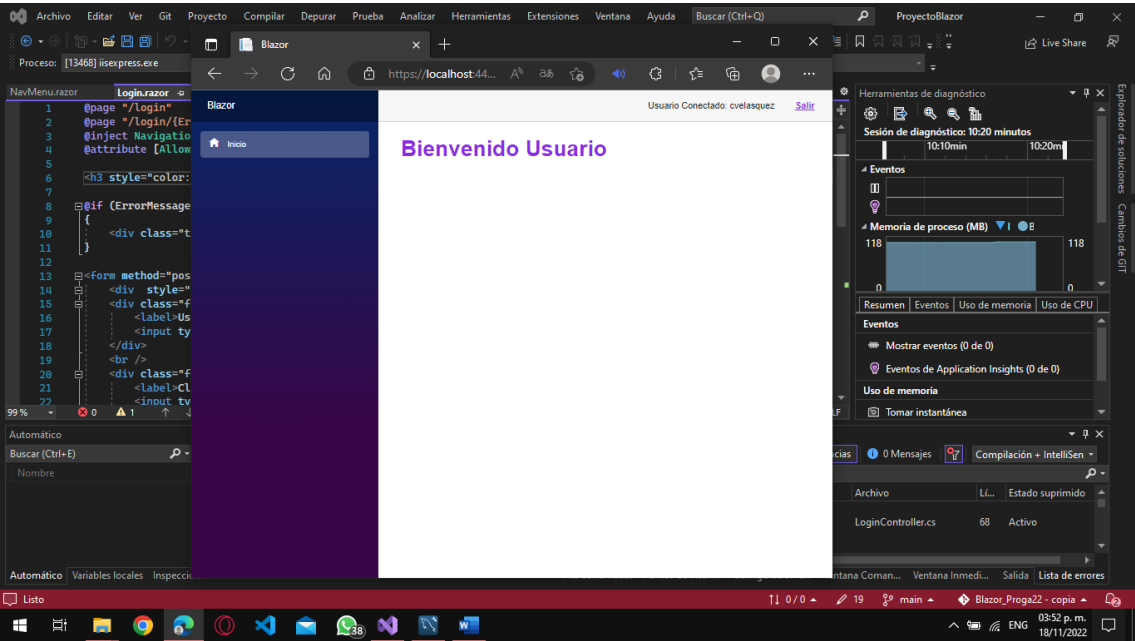

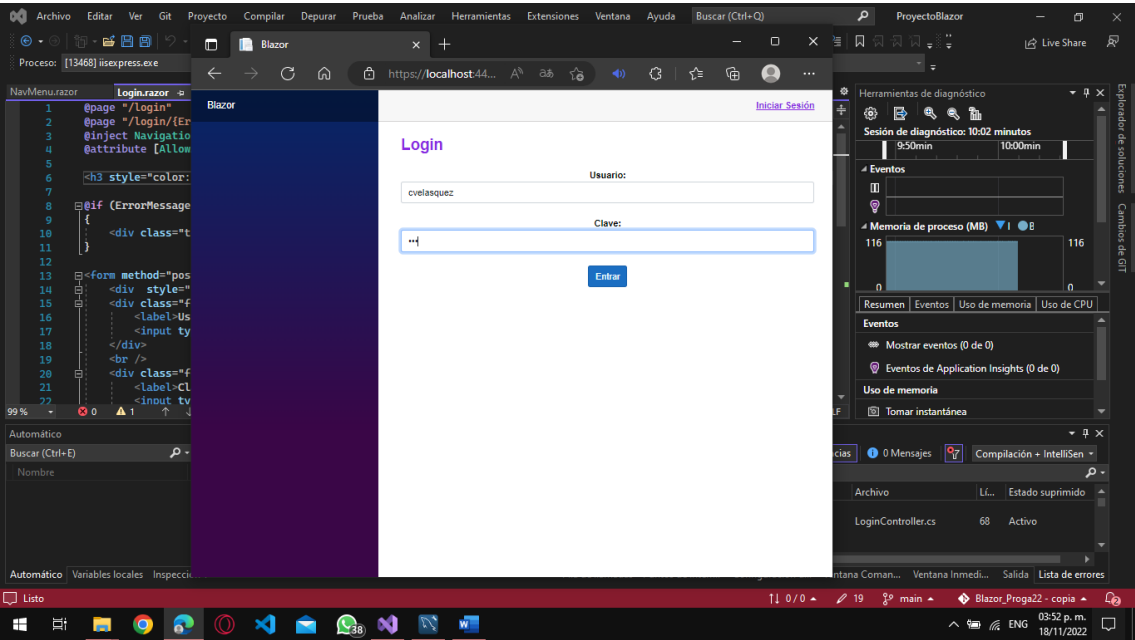

The screenshot shows the Visual Studio Code interface with the Blazor application running. The 'Blazor' window displays the application's output, which includes a message: `Debe identificarse para poder acceder a la aplicación`. The 'Blazor' window also shows the application's state, including the 'Inicio Sesión' button and the 'LoginController.cs' file.

The 'Blazor' window also shows the application's state, including the 'Inicio Sesión' button and the 'LoginController.cs' file.
